

# PRECONFIGURED KITS FOR EVERY LEVEL OF BREWING

In the world of craft brewing, water is an essential ingredient to making a quality tasting beer. Our Smart Brew® Water Testing Kits are the perfect tool to properly test your water quality before beginning the brewing process. Our latest offering, the Smart Brew® Professional Kit, is the first test kit to incorporate Bluetooth® connectivity with both a photometer and multi-probe meter for the most complete water test kit.

Part No. 486101-SB3-K

## SMART BREW® PROFESSIONAL KIT:
