

I-O-SAFE

IODOPHOR BASED SANITIZER

DESCRIPTION

Combining the powerful action of iodine, I-O-SAFE is ideal for use wherever sanitizing problems occur. Highly effective against a broad spectrum of bacteria, viruses, and fungi commonly encountered in food processing plants. Surfaces treated with I-O-SAFE are thoroughly sanitized, brightened, and ready to return to operation. No rinse is required after use of this product. EPA Reg : 4959-15-12446

DIRECTIONS FOR USE

This product is designed for sanitizing and disinfection of equipment and utensils in food processing, brewing, beverage, and dairy manufacturing facilities. PRODUCT MUST BE USED IN ACCORDANCE WITH LABEL DIRECTIONS. PLEASE REFER TO ORIGINAL PRODUCT CONTAINER LABEL FOR PROPER USE DIRECTIONS.

Contact ZEE COMPANY, INC. for further use directions.
