

MOTORIZED MALTMUNCHER PRO MILL706

ASSEMBLY

- 1 Set the Base on top of the frame. Put a bolt in each corner with the flat washer on top and the lock washer and wingnut on bottom.

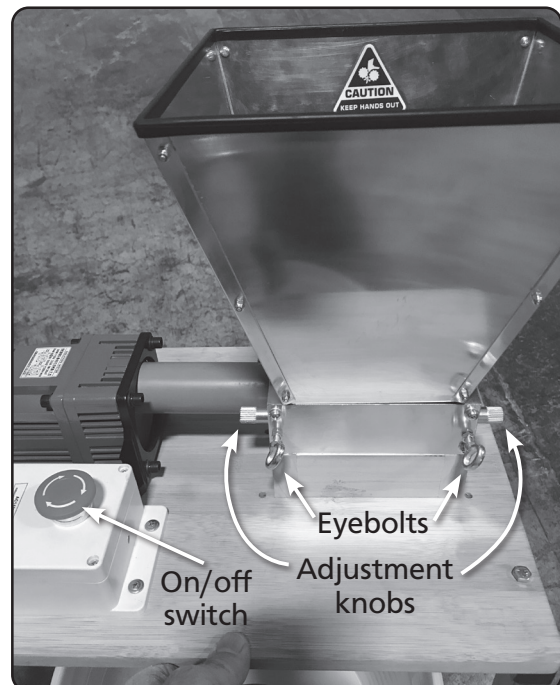

- 2 Install the slot of the shoot down onto the bolt between the nut and wall of the mill. Then tighten down the bolt with a Philips screwdriver from the outside while holding the nut with your finger on the inside by reaching under the guard.

ADJUSTING THE MILL

- 1 Make sure the mill is unplugged.
- 2 Loosen the two eyebolts in front.
- 3 Then adjust the mill as necessary by using the adjustment knobs located on the sides.
- 4 Remember to retighten the eyebolts when you are done.

TURNING ON/OFF THE MILL

To turn on the mill turn the red knob clockwise, allowing switch to come up. To stop push down on the knob.
