MATERIAL SAFETY DATA SHEET for MALT EX-MALTHOUSE

1. Identification of substance and of the manufacturer.

Product name:	Malted barley (Malt)
Product use:	Foodstuff
Company name:	MOUTERIJ DINGEMANS
Address:	LAAGEIND 43 2940 STABROEK BELGIUM
Telephone:	0032.3.568.68.68
Emergency contact details:	DINGEMANS KARL

2. Information on main ingredients

Gross composition (typical):	Malt is a whole grain cereal food product
Carbohydrates	75 - 80%
of which Starch	58 - 62%
Protein	10 – 12%
Fat	3%
Minor components	1 - 2%
Ash	3%
Water	4%
Dust	< 1%

3. Hazards information

Not classified as hazardous under Directives 67/548/EEC and 1999/45/EC	
Eyes and skin	Not irritating to eyes or skin
Ingestion	Non- hazardous food product
Inhalation	Inhalation of dust may affect respiratory tract

4. First aid measures

General exposure	Not hazardous
Inhalation of dust	Remove from exposure. Consult physician if coughing or other symptoms persist.

5. Fire hazards

Special hazards	Can give rise to hazardous fumes (oxides of carbon) on combustion.
Protective equipment	If fire is severe wear self contained breathing apparatus

DINGEMANS

6. Accidental release

Personal protection

Environmental precautions

Not required

Avoid the material entering water courses or drains

7. Handling and storage

Stores should be suitable for foodstuffs, dry and protected from contamination with birds, insects and vermin.

8. Exposure controls

Not normally required

9. Physical and chemical properties

Physical state;

Colour;

Odour;

Density;

Angle of repose;

Volatility;

Solubility:

Combustion temperature;

solid

pale brown to black, depending upon type.

slight, characteristic

0.55 tonnes/cu.metre

26° from the horizontal

Not volatile

Not soluble in water (slowly decomposes by microbial action)

approx 220°C

10. Stability and reactivity

Stability;

Incompatibility;

Hazardous combustion;

Stable under normal conditions.

None known

Combustion will generate oxides of carbon.

11. Toxicological information

Non-toxic food product

12. Ecological information

Biodegradable. Nutrient source.

13. Disposal

Can be disposed of to landfill

14. Transport

Not classified as hazardous under relevant Directives

15. Labelling

Not applicable

16. Other

The information in this Safety Data Sheet is correct to the best of DINGEMANS MALTINGS 's knowledge.
